Bourges, Gamassi talk shop

CAFRO, Jan. 5 (R). — French Defence Minister Yvon Bourges and Egypt's War Minister, Gen. Abdul Ghani Gamassi, today began a detailed study of what arms Egypt wants from France, well-informed sources said. Mr. Bourges flew to Cairo yesterday for a five-day visit and said his country was ready to offer military help "within the limits of its own potentialities." The French minister said then that France was ready to become a long-term supplier of ground and air weapons to Egypt.

Unravelling hoaxes

Two apparently unconnected events in the past week are good examples of the delicate structure of deception upon which Israel has been built up, but which in time -like all deceptions - - shall crumble under the public exposure that Israel tries so hard to avoid. The two things we refer to are the decision of the British government to withhold some cabinet papers on Palestine from the year 1946 because these are said to be still "sensitive" (the papers would have been made public this week after the normal 30-year lapse), and the still unfolding tale of contacts in Paris between PLO officials and members of the Israeli Council for Israeli-Palestinian Peace (ICIPP). The connection between the two is that they are both part of the unravelling of the grand Zionist hoax that has built an Israeli state in Palestine and kept the Middle East soaked in turmoil and blood for the past 30 years.

The decision to withhold the British cabinet papers was probably made because release of those papers would show that Zionists in the 40's used "unusual forms of pressure, including assassination threats," according to M.P. Christo-pher Mayhew, who recounted this week that such threats were used against himself, British ministers and even the then Foreign Minister Mr. Bevin. It would be a monumentally awkward revelation if the people who support Israel so passionately in the West were to have it handed to them in official British cabinet papers that the fellows in Israel who talk so often about peace today, such as Messrs. Rabin, Allon and Dayan, were nothing more in 1946 than leaders of terror units who casually knifed up British soldiers and went about their daily business using the forms of "terrorism" that today they damn so vehemently when they are used against them by others. It would be similarly embarrassing for the friends of Israel to admit that the same people who blew up British subjects and terrorised Palestinians in the 40's are doing the same work today by sending assassination units throughout Europe to kill off the Palestinian leadership they could not kill off in the 40's.

The talks between the PLO and the ICIPP unravel the Zionist hoax because they are testament to the fact that Palestinians and Israelis can live together in Palestine if they come to an understanding about the nature of essential Palestinian national goals. The unremitting folly of Zionism (and the complementary folly of the people who equip Zionism with hundreds of F-16 fighter jets) have been and continue to be build upon the desire of Israel to be the dominant power in Palestine. The result of this has been and continues to be warfare. The PLO-ICIPP contacts will help the Zionist hoax come crashing down upon itself because these contacts will slowly show that there is a way for Palestinian Arabs and Israeli Jews to live side by side in a Palestine where the common sense, goodwill and the instincts for justice of all will satisfy the nationalistic aspirations of both Arabs and Jews. This will one day bring peace.

The present Israeli leadership is fighting a battle to cover up the facts of history, and thus to keep the Israelí people wandering in the wilderness of their fortress state for many more years. All around them, however, history is unravelling its deceptions and exposing its hoaxes. It is no wonder that the Israeli answer to this is to ask for more guns from the United States, because the United States today remains the last fertile playground of Zionist mythology. But for how long?

It would be a service to humanity if the American Congress opened its new session this month by a public reading of the British cabinet papers of 1946.

● KUWAIT, Jan. 5 (R). — The Ministry of Information today ordered the closure for three months of the Kuwait weekly news magazine Al Tali'a after it produced only one issue following a previous three-months closure. The ministry would only say that the magazine, edited by Mr. Sami Al Munais, a member of Kuwait's dissolved National Assembly, had contravened provisions of the publications law.

● TEL AVIV, Jan. 5 (R). — Thousands of Israelis have promised not to drink coffee at work in a campaign to bring down its price, increased by more than 30 per cent last month. LONDON MARKET REPORT

The market closed steady to firm, dealers said.

Government stocks rose on hopes of a lower minimum lending rate and on higher sterling, while leading equities edged higher after early profittaking.

Short-dated gilts gained around 1/4 to 3/8 point while longs put on 1/8 to 1/4, in fairly active two-way trading throughout the list. Longs were also encouraged by the government broker's withdrawal of the long 'tap' price.

Some leading industrials ended a few pence higher after early small falls were recouped.

At 1500 the F.T. index was up 1.0 at 361.6.

Oils were steady to a shade harder by the close. B.P. recovered an earlier 6p fall and Shell was a penny higher after moving narrowly. Banks reversed early small falls among the big four.

Mining shares tended easier in line with the decline in the gold bullion price but Australians were little changed.

Decision on date for summit of industrial nations will follow Carter's inauguration

LONDON, Jan. 5 (AFP). - Consultations on the date and venue of a new economic summit meeting of the seven leading industrial powers will start only after the Jan. 20 inauguration of U.S. President-elect Jimmy Carter, British government sources said today.

They said a collective decision was necessary on this point, but reaffirmed Britain's readiness to host the proposed meeting of heads of state and government, which would be the third of its kind after those held at Rambouillet near Paris in November 1975 and at San Juan, Puerto Rico, last June.

The same sources said that Britain, as chairman of the Council of Ministers of the European Economic Community EEC) in the first half of this year, would seek to appease the 'legitimate worries" of the smaller EEC countries as to the manner in which their interests would be defended at the proposed summit.

However, they said, Britain did not feel there would be any need for a special top-level meeting of the nine EEC countries beyond the one scheduled for Feb. 21-22 in Brussels.

The 'big four' EEC countries -- Britain, France, West Germany and Italy -- took part in both the Rambouillet and Puerto Rico conferences. The other participants were the United States and Japan, as well as Canada at the second
